Quick Guide
Fire Alarm Panel Reset

Only reset the Fire Alarm when you have safely established that a False Alarm has been activated.
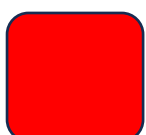

Follow the sequence below at a <u>slow</u> pace.

Press……….

 once (menu)

Number **2** once (accepting entry to level 2)

Number **3** <u>four times</u> (code)

 once (silencing)

 once (reset)

Number **4** <u>twice</u> (Panel should now be displaying 'Normal')
